### Don't Let Your Married Love Grow Stagnant!

"I recall an old saying: still water becomes stagnant and good for nothing. If...a couple's experience of love grows stagnant, it loses the very excitement that should be its propelling force. {Married} love needs to keep dancing toward the future with immense hope." *Pope Francis*

Deacon Jim Keating, national author, retreat master, and parish mission speaker will present a day of Marriage Enrichment at Church of the Ascension, on July 30 from 9:00 am until 3:30 pm, *The Way to Marital Happiness*. ### Put Some Balance Back in Your Life

When we begin to understand **what Christian prayer is**, and when we give it its **proper place** in our lives, we become much more **stable, joyful, and energetic** people.

One of the problems with today's society is that it is **out of balance**.

In the past, before electricity and internal combustion engines, people were **forced** to follow a more **natural** rhythm of life.

Night and day mattered.

It took time **to communicate and to travel**, so that meant there was **more time to reflect** on life's mysteries and **enjoy** life's simple pleasures.

Our scientific and technological advances have **changed things a lot**.

Now it is possible to live at a **reckless pace** in which we become enslaved to our own to-do lists.

Now it is necessary to **choose** to follow a healthy rhythm of life.

Many people don't know how to **defend themselves** against this slavery, which is why today's **psychologists** are dealing with a **literal plague** of stress and depression.

**Christian prayer**, confident, persistent, personal conversation with God, is one of the **weapons** God gives us to **keep us human** in this **mechanized culture**.

Whenever we turn to God in prayer, we put our minds and hearts in contact with **the very source** of life, beauty, and truth.

That **refreshes the human soul**, just as **rebooting your computer** refreshes all the hardware and software that makes your computer run.

When stress, discouragement, and frustration start to **clog our circuits**, we don't need to jack up the voltage by **working more hours** or by **distracting ourselves** with even more exciting entertainment - no, we need to **reboot**. **We need to pray**.

Today, in **response** to Christ's reminder about the nature of Christian prayer, let's **renew our commitment to taking time every day to be alone with God**, to **reboot our souls** every morning and evening; so that our lives can run more smoothly, the way God designed them to run.

"The man who prays looks above to the goods of heaven whereon he meditates and which he desires; his whole being is plunged in the contemplation of the marvelous order established by God, which knows not the frenzy of earthly successes nor the futile competitions of ever increasing speed; and thus automatically, as it were, will be re-established that equilibrium between work and rest, whose entire absence from society today is responsible for grave dangers to life physical, economic and moral." *Pope Pius XI*
